

Create and read an OMR **bubble sheet** with **one program**.

Reduce your workload. Increase your accuracy.

Finally, there's a way to **simplify data collection** from **paper-based, multiple-choice documents**. With FormReturn's Optical Mark Recognition software, you'll be able to process all of your **tests, surveys and forms** at **lightning speeds**. After receiving a new form, **simply scan** it, upload it to FormReturn, and then watch as your information – and **valuable data** – is uploaded directly into Captured Data. This software doesn't just reduce paperwork... **it saves you the cost of paying for time-consuming data entry.**
